on this  
issue

**custo holter ABPM:**

**1 Synchronous recording of Holter ECG and long-term blood pressure**

**Holter ECG transmitter  
custo guard 3**

- 3-channel ECG recording
- Waterproof
- Extremely lightweight

**3-channel electrode belt  
custo belt 3**

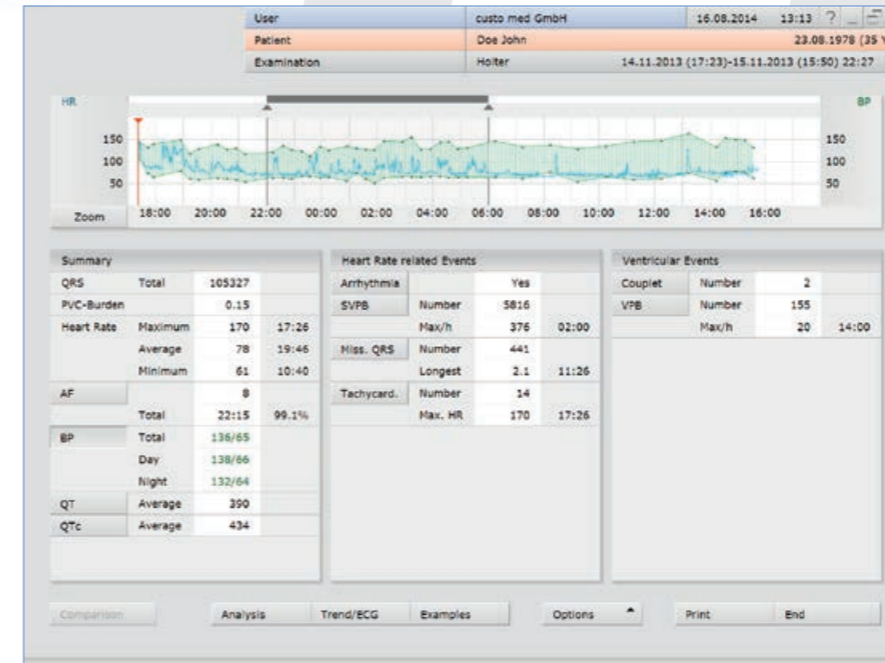

- Holter ECG without adhesive electrodes
- High wearing comfort
- Machine washable

**Ambulatory blood pressure recorder  
custo screen 400**

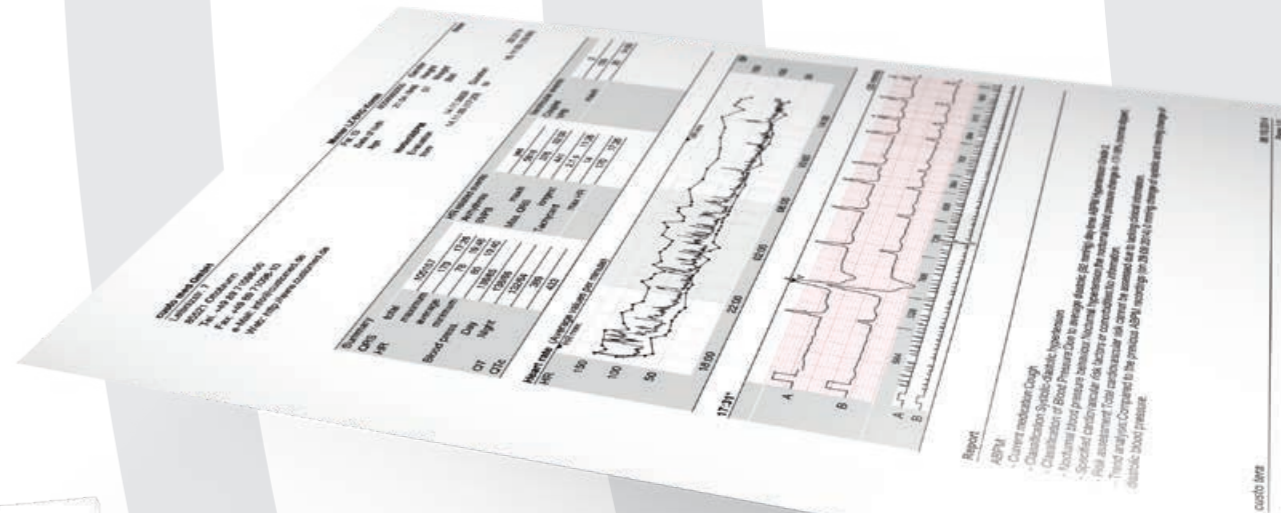

- custo screen 400 is the first ABP monitor worldwide that has been validated according to the new, more stringent requirements of the ESH-IP 2010 protocol.
- High-quality double tube system for significant reduction of motion artefacts
- Skin-friendly, easy-to-disinfect synthetic cuff (latex free), available in sizes S to XXL
- Ambulatory blood pressure recording is also possible without Holter ECG

**2 Combined evaluation of Holter ECG and ABPM examination**

**3 Compact display of Holter ECG and ABPM report**

Prevention, Diagnostics, Therapy - by Prof. Dr. med. Thomas Mengden

## custo diagnostic

### The intelligent link between clinical engineering and administrative software:

custo diagnostic integrates the entire cardiopulmonary functional diagnostics in one consistent and modular user interface. Our central software platform allows you to work consistently in all applications - from the single-user workstation to the multi-site solution.

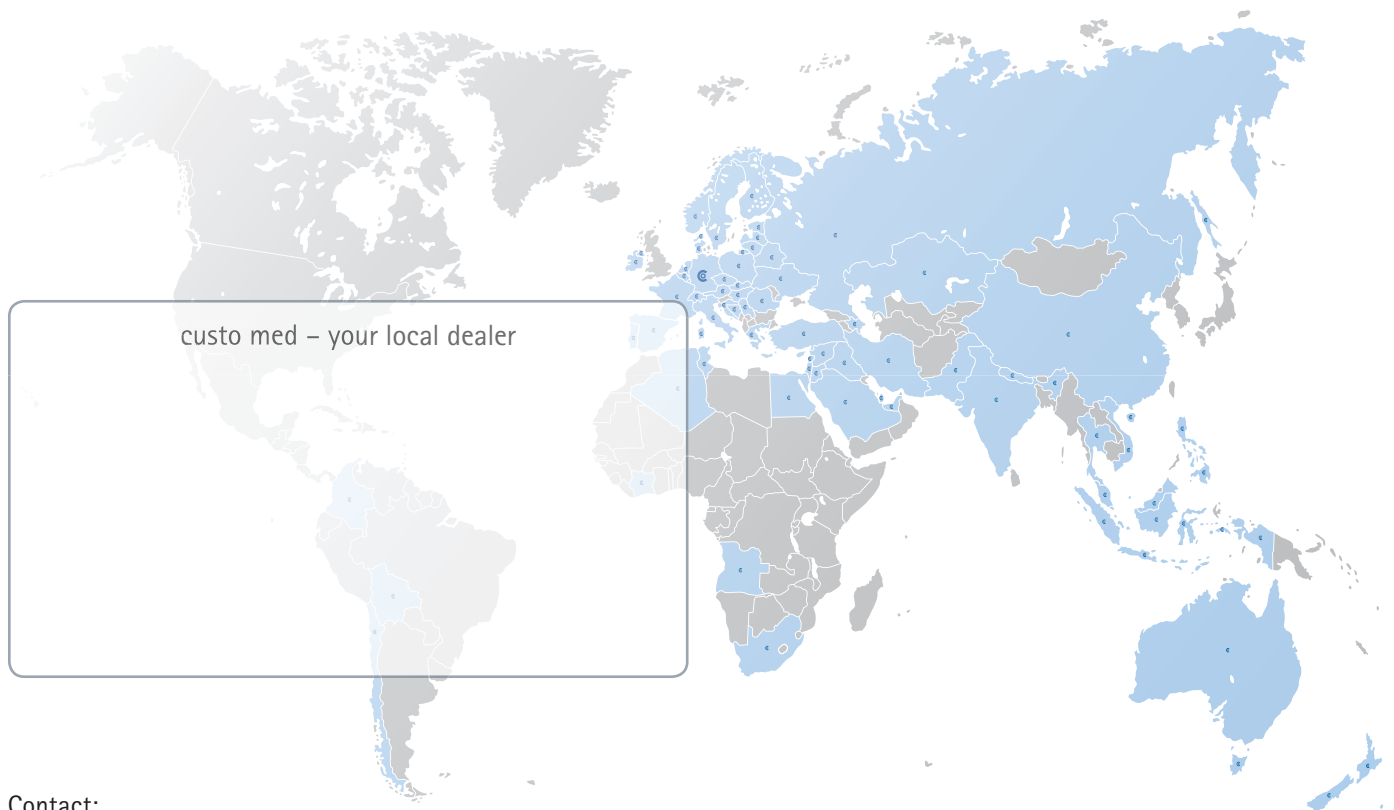

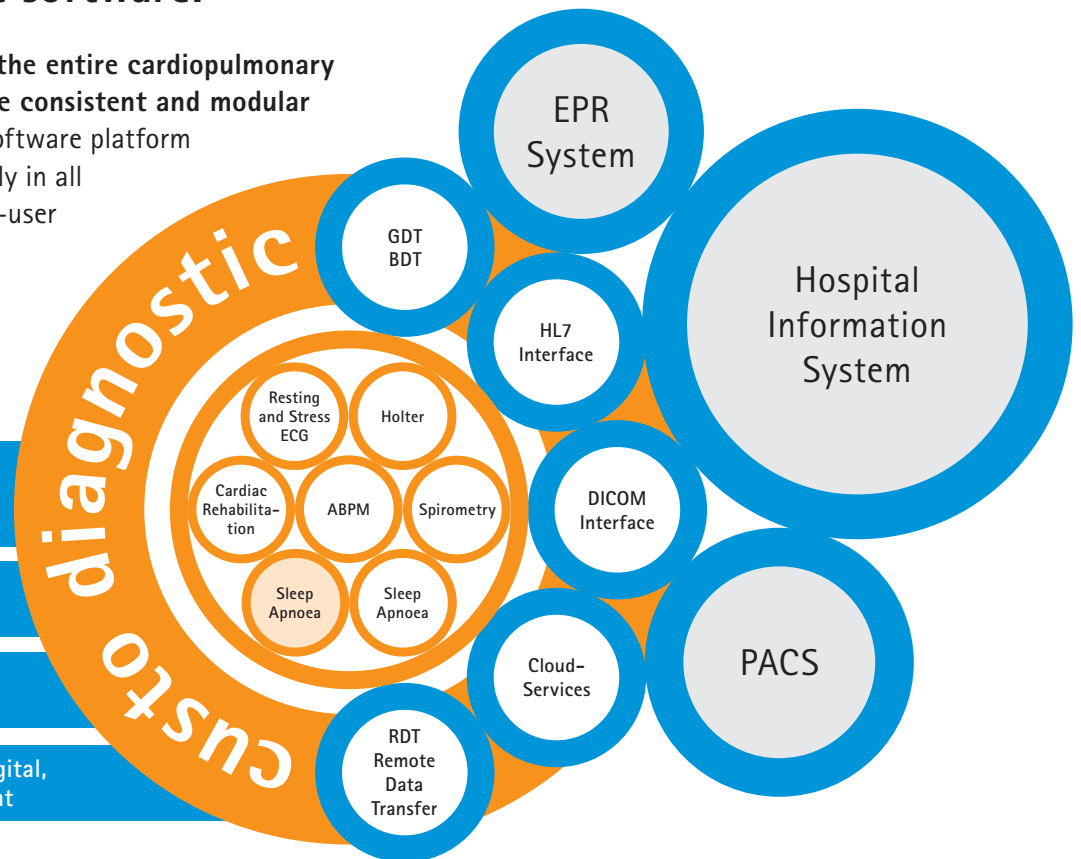

#### SOFTWARE-FEATURES

Seamless integration and safe workflows via all standard interfaces

Cost-effective modular license system

User-optimized software due to customer-oriented development

Software-based diagnostics – digital, paperless and thus highly efficient
